

Project Recovery

Project Recovery is a community based program designed to provide crisis counseling and outreach services to the residents within the 30 counties included in the disaster declaration resulting from the floods, high winds, and tornadoes of June 2008.

Outreach Workers are currently in your area and available to discuss how to link you to resources that you may be eligible to receive as a direct result of the 2008 floods and tornadoes.

If you or someone you know is experiencing difficulties resulting from the 2008 disaster, there is help available.

Please contact Project Recovery for confidential information concerning disaster related services, tips for getting through tough times and referrals to local resources that may be able to assist you.
