Project Recovery

Disasters often strike with little or no warning.
In an instant your home and community can be damaged or destroyed and forever changed.
Even if your home or business does not suffer directly, you can still feel a disaster's impact.
Disasters can linger with endless repairs, insurance difficulties, financial problems, tension, exhaustion, and health concerns.

Outreach Workers are currently in your area and available to discuss how to link you to resources that you may be eligible to receive as a direct result of the 2008 floods and tornadoes.
If you or someone you know is experiencing difficulties resulting from the 2008 disaster, there is help available.

Please contact Project Recovery for confidential information concerning disaster related services, tips for getting through tough times and referrals to local resources that may be able to assist you.
